Passionate React Developer and UI/UX Designer, immediately available to embrace new challenges within a dynamic team. Autonomous, meticulous, and versatile, I am deeply committed to crafting modern and high-performance user interfaces.

Education

My Digital School

Sept 2021 – 2022

Bachelor's Degree in Web and Mobile Application Development and Design

Paris, France

Relevant Coursework

- Web Accessibility (A11y)
- JavaScript Frameworks (React)
- APIs and RESTful Services
- Version Control (Git, GitHub)
- User Interface (UI) Design
- Testing and debugging

Experience

National Center for Scientific Research (CNRS)

Sept 2023– Nov 2024

FrontEnd Developer

Nemours, France

- Created the design for the ISIA application, ensuring it was both functional and aesthetically pleasing while adhering to best practices in UX/UI.
- Implemented a feature-based architecture for the front-end project, allowing for better modularity and simplified feature management.
- Worked with the backend team to perform requests on the developed APIs, ensuring smooth data exchange between the front-end and back-end.
- Implemented the application design using Tailwind CSS for a modern and responsive style, as well as Material-UI (MUI) for predefined components in certain sections of the application.

Independent Developer (Freelance)

Dec 2022– Sept 2023

FullStack Developer

Melun, France

- Designed and developed responsive web applications using the MERN stack, ensuring high performance and responsiveness across devices.
- Created RESTful APIs with Node.js and Express.js, allowing seamless communication between the front-end and back-end.
- Géré la version des projets et la collaboration en utilisant Git, permettant une collaboration efficace et le suivi des modifications du code.
- Utilized TypeScript to enhance code quality and maintainability by implementing static typing and reducing runtime errors.

D'or et de vins

Sept 2021– Aug 2023

FrontEnd Developer

Paris, France

- Integrate a design on wordpress (CMS)
- Train trainees on a theme builder Oxygen Builder to create websites on the wordpress (CMS).
