Front-end developer with over 3 years of experience, specializing in React, Next.js, and Tailwind. I enjoy creating simple, high-performance, and user-friendly interfaces. Following my experience at the CNRS and various freelance assignments, I am now available for new freelance collaborations to support teams and web projects with efficiency and autonomy.

## Technical Skills

**Front-end** : React | Nextjs | Typescript | TailwindCSS | HTML5 | CSS3

**Back-end** : Nodejs | Expressjs | Api Rest

**Outils** : VS Code | Cursor | Git | Docker | GitHub

## Professional Experience

### CNRS — Front-End Developer

Sept 2023 - Nov 2024

Nemours, France

- Designed and integrated the UI for the ISIA web application using React, Tailwind CSS, and MUI
- Built a modular and scalable architecture
- Collaborated with back-end developers to ensure smooth API data handling
- Followed best practices in UX/UI and ensured accessibility (A11y) compliance

### Freelance — Fullstack JavaScript Developer

Dec. 2022 – Present

Paris, France

- Developed web applications using React.js, Next.js, TypeScript, and Tailwind CSS
- Built and consumed REST APIs using Node.js and Express.js
- Delivered responsive frontend integrations and project maintenance
- Handled project management and communication with clients independently
- Used Git and GitHub for version control and collaboration

### D'or et de Vins — Front-End WordPress Developer

Sept 2021- Aug 2022

Paris, France

- Integrated custom designs using Oxygen Builder
- Trained interns in WordPress development

## Education

### My Digital School

Sept 2021 - 2022

Bachelor's Degree in Web and Mobile Application Development and Design

Paris, France

## Interests

Football, Boxing, Hiking, Programming, Traveling
